## Quality Checklist

### One-Stop Shop for all your Cabinetry & Joinery needs

We manufacture & install your cabinets and joinery from start to finish, with our own staff, in our own factory premises.  
We do both domestic and commercial work, and we'll make anything  
We are happy to supply and co-ordinate associated trades

### Quality Products & Workmanship

We custom build to suit your needs  
We use only top quality material & fittings, and the care we take shows in the end result  
We are happy to provide references to demonstrate the quality of our work

### Good Design Advice

We're experienced, and up with all the latest trends  
We can produce design drawings  
We don't always tell you what you want to hear - if it won't last, we won't use it - but we will give you what you want

### Competitive Price

We provide written, obligation free quotations  
Show us another quote and we'll do our best to beat it

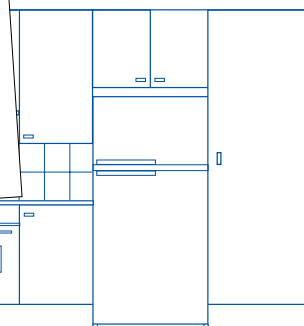

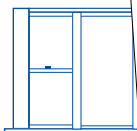

### Solid Reputation

We're a third generation family business, established in 1987  
We carry all insurances, registrations and memberships  
We provide warranty (and we've been in business long enough for that to be worth something)  
We've won many industry awards for our work

### Professional Approach

We turn up when we say we're going to (that's rare)  
We stay on the job until it's finished  
We use contracts to protect everyone involved in the project  
We'll work with whoever it takes to get a great outcome - clients, architects, builders and designers  
We treat your home as if it's our own - we remove all rubbish and leave everything tidy on completion
